**ABOUT**

# **ST. ELIZABETH CATHOLIC SCHOOL**

**For 60 years, St. Elizabeth School has been dedicated to the formation of the whole child through life-long learning skills. We provide a safe and positive learning environment through a curriculum that integrates Catholic truths and values. Our School is built on truth, compassion, care and respect. We foster diversity and student responsibility in accordance with the teachings of Jesus Christ.**

# Accredited By:

**Western Catholic Educational  
Association (WCEA)**

**Western Association of  
Schools and Colleges (WASC)**

# **PHILOSOPHY**

---

**St. Elizabeth Catholic School is a Catholic community centered in Christ and committed to the formation of the whole child. We strive for academic excellence through a curriculum that integrates Catholic Truths and Values.**

**We foster compassion, care, respect, diversity and student responsibility in accordance with the teachings of the Jesus Christ. We promote optimal learning through spiritual, intellectual, psychological, emotional , physical and sociological development.**

# **MISSION**

---

**St. Elizabeth Catholic School is integral to the mission of the Catholic Church. We teach Jesus Christ's transforming love, compassion, care and respect.**

**With our parents as the primary educators, we provide quality Catholic education through an integrated 21st century curriculum, preparing all students to face the challenges of life by living and modeling Catholic Values.**

*"Where Knowledge, Truth & Values Meet"*

- (Physical, emotional, social, spiritual)

# ACADEMIC PROGRAMS

**Our Curriculum is centered around five core subjects and seven co-curricular programs:**

**Religion:** Students are provided with a basic foundation of Catholic teachings with various opportunities to develop a personal relationship with GOD. Classes are held daily, along with a monthly school-wide mass, and community service opportunities.

**Language Arts:** Students develop the proficiency to comprehend , analyze, and interpret texts across various genres. Additionally, listening skills, oral language, and study skills are practiced.

**Writing Workshop:** Students apply principles learned in Language Arts classes to the production of messages that are effective and appropriate. Opportunities for developing grammar, expository, persuasive , and creative writing in both written and computerized forms.

# ACADEMIC PROGRAMS

**Mathematics:** Students develop problem solving and critical thinking skills involving numbers and the use of rules/patterns. This forms the foundation for practical real-world application of problem solving skills.

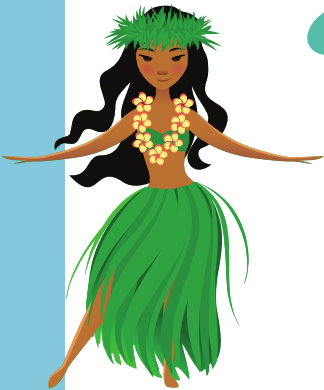

**Science:** Students discover and appreciate the natural environment and realize the impact of human actions on the world around them. STEM is integrated into the curriculum.
